

Cincinnati 325-12

Cincinnati 325-12 infeed grinder with automatic load/unload. New technology includes Allen-Bradley PLC-5 along with ballscrews in the grinding wheel dresser and in the infeed of the regulating wheel slide. The regulating wheel has also been updated with a variable speed motor interface with the PLC.

Operation

- Grind 5 O.D. diameters with one cycle of the machine
- 40.829/40.843 mm
- Tightest tolerance 0.014 mm
- CPK 1.47
- 90 shafts per hour
